G. ACTION ITEMS:

1. **REQUEST BY BRAD BLANCH TO REINSTATE TO GREENBELT STATUS PARCELS #15-048-0036, #15-515-0001 AND #15-515-0002**

Joe Olsen, of the County Assessor's Office, representing the Tax Review Committee, said that Mr. Blanch created the 2-lot Blanch Estates Subdivision in 2012 from Parcel 15-048-0036. The parcel previously qualified for greenbelt status. Since that legal description change, the rollback tax was calculated and provided to Mr. Blanch, who appealed the market value timely but did not challenge the withdrawal of the land from greenbelt status per the Weber County's Rollback Statement of Tax Due and Lien. The rollback tax was not paid back timely and was attached to the new legal descriptions of 15-515-0001 and 15-515-0002. Mr. Blanch approached the Tax Review Committee (Committee) and requested the removal of the rollback tax and reinstatement of greenbelt status on the parcels for 2013 and 2014.

The Committee heard the item and after lengthy discussion, with analysis and input from Courtlan Erickson, county legal counsel, which included the process followed by Angela Hill, of the County Assessor's Office, it was determined that there was no erroneous assessment or factual error, that the county had followed State Code properly, and they recommended denial of the request. There had also been discussion with County Planning on this item. Mr. Olsen noted that there were several opportunities that the rollback issue could have been appealed, including when the notice was first mailed out identifying what the rollback was, and which included language about appealing. The 2013 and 2014 valuation notices also showed that the property was no longer in greenbelt.

Mr. Blanch stated that Mr. Olsen had described the item correctly. He said that it could be argued that the legal description of Parcel 15-48-0036 had changed because it became a subdivision but the boundary description had not changed and is contiguous to other property that he owns. In 2012 he recorded the subdivision and built a house on the parcel. He then received a tax notice. He said that it could have been his misunderstanding, but he did not think he could appeal the status of greenbelt, and he stated that he should have appealed. He also felt that because the use had not changed, that this issue did not apply to him. Early this year he started building a house on the property. A couple of community members told him that maybe the property should still be in greenbelt and he approached Ms. Hill this year to put it back into greenbelt and was successful. From 2012 prior it had been greenbelt and his question is concerning 2013 and 2014.

Mr. Blanch had said that there had not been a description change but Mr. Olsen pointed out that Mr. Blanch subdivided the property into the two lots and code states that if there is ownership or legal description change, that rollback tax is due unless application is made to re-qualify for greenbelt status. This was not done until 2015. Mr. Olsen noted that there is an improvement on the property. He said that the county followed code and Ms. Hill concurred, noting that the application deadline for greenbelt status is May 1 and no applications were submitted for 2013 and 2014.

Chair Gibson stated that the commissioners try to give the benefit to the taxpayers whenever possible to accomplish their goals, however, the county is subject to the law. No application to re-qualify was submitted for those two years. Commissioner Bell expressed concerned that Mr. Blanch had not paid the rollback taxes and Commissioner Ebert expressed concern with starting a precedent and going against the law.

Courtlan Erickson, Deputy County Attorney, addressed questions raised by Mr. Blanch and stated that the Committee had asked similar questions to the commissioners' about how the law applies to these particular facts. The Committee had asked if the process had been followed by the County Assessor according to statute 59-2-506(5) and the Committee determined that it had complied, that it had mailed notice to the owner that the land was withdrawn from this part, was subject to rollback tax and rollback tax would be delinquent if not paid within a specified time. An appeal was available and one was filed regarding valuation, but did not raise the rollback issue in that appeal, that appeal was carried to a final outcome, and conclusively dealt with the issues in that appeal, and the county did not err. Regarding Mr. Blanch's question whether greenbelt status was properly removed, statute 59-2-509(3) states that land is withdrawn from greenbelt status if there is a change in ownership or legal description of the land. The Committee determined that where it used to be one parcel, which was subdivided, and in fact now there are two parcel numbers, that this constituted a new legal description of the property, even though the external boundaries remained the same, and this automatically results in withdrawal from greenbelt status. However, the owner has the opportunity to submit a new application for greenbelt status to continue but it must be submitted within 120 days after the change. This did not occur. No error could be found on the part of the county. Mr. Erickson recommended following the law and to deny the request.

Commissioner Bell moved to uphold the Tax Review Committee's recommendation to deny the request to reinstate Parcels #15-515-0001 & #15-515-0002 to greenbelt status for the reasons stated above; Commissioner Ebert seconded.

6. **INTERLOCAL AGREEMENT WITH THE OGDEN CITY REDEVELOPMENT AGENCY (RDA) AUTHORIZING THE SHARING OF TAX INCREMENT FOR THE KIESEL COMMUNITY DEVELOPMENT PROJECT AREA (CDA)– RESOLUTION 38-2015, CONTRACT C2015-359**

Douglas Larsen, Weber County Economic Development Partnership Director, showed an area map of the CDA boundaries stating that it encompasses the area between Kiesel and Wall Avenues and 24th to 25th Streets. The agreement defines how the county as a taxing entity may participate in this CDA—which allows the new property tax generated within the assigned boundary to flow back to the development. Investment projections are \$11-\$17 million from private investment. The plan proposes to utilize tax increment for renovation of buildings that include the Kiesel Building, the Old Post Office Building, the Berthana Building, and parking infrastructure. The proposal asks that the county participate over a 20-year period at 100% of the tax increment generated within the project area with a cap at \$2.2 million.

Brandon Cooper, with Ogden City RDA, expressed gratitude to the commissioners on behalf of Ogden City for their cooperation. This area is targeted because 24th Street is historically the entry to downtown and in this corridor there is a large collection of historic buildings that lay vacant and dilapidated. This is an effort to rescue them and put them back into productive use. It will create jobs downtown, will add residential space, and add to the city's commercial viability.

Commissioner Bell moved to adopt Resolution 38-2015 approving Contract C2015-359 with the Ogden City Redevelopment Agency authorizing the sharing of tax increment for the Kiesel Community Development Project Area; Commissioner Ebert seconded.
