AGREEMENT

This Agreement entered into this 14th day of November, 1990, by and between the State of Utah, acting through the Board of Water Resources, sometimes referred to herein as the State, and the Wilson Irrigation Company, a corporation organized under the Laws of the State of Utah, sometimes referred to herein as the Water Company:

WITNESSETH

THAT WHEREAS, the Utah Legislature has authorized the Board of Water Resources, under Title 73-10 Utah Code Annotated, to enter into contracts for the construction of water conservation projects which, in the opinion of the Board, will best conserve and utilize the water resources of the State of Utah; and

WHEREAS, the State desires to promote a water conservation project, estimated to cost $220,000.00, and to provide 75% of the project cost from the Revolving Construction Fund for construction of about 2,000 feet of 48-inch RCP inverted siphon and inlet and outlet structures, hereinafter referred to as the Project and located in Sections 23 and 26, T6N, R2W, SLB&M in Weber County, Utah; and

WHEREAS, it is the desire of the Water Company to enter into a contract with the State, for a consideration to be hereinafter provided, and to use the water developed by the Project, and as the Water Company has the available manpower and facilities necessary to construct the Project, and is ready, willing, and able to enter into a contract for such purpose;

NOW THEREFORE, the Parties hereto enter into this agreement and make the following assignments:

1. The Water Company hereby agrees to convey, grant, and warrant to the State, title, in fee simple as required, to the real estate upon which the structures are to be constructed; and further agrees to convey, grant, and warrant to the State, title to such easements and rights-of-way as shall be necessary to enable the State to construct, maintain, and operate the Project; and further agrees to grant and convey to the State an easement to use any and all of the Water Company’s facilities in Section 30, T6N, R1W, and Sections 23, 24, 25, 26, 27, 28, 32, 33, 34, and 35, T6N, R2W, and Sections 3, 4, 5, 7, 8, 9, and 17, T5N, R2W, SLB&M.
2. The WATER COMPANY hereby agrees to convey, assign, and warrant to the STATE, all right, title, and interest which it has or may have, to the right to the use of the water which shall be developed or conveyed through the use of the PROJECT, and particularly to the water user claim Nos. 35-8980; 35-8036; 35-2160 Application No. U1904; and No. 35-1244 Application No. A32784 Certificate No. 8370.

3. The WATER COMPANY recognizes as valid the conveyance of easements and rights-of-way executed by various owners of the land to the STATE, and agrees that all performance by the WATER COMPANY under this contract shall be subservient to, and in recognition of, the aforesaid rights of the STATE in and to the aforesaid easements and rights-of-way.

4. The WATER COMPANY agrees to supply the necessary manpower and facilities and agrees to complete the construction of the PROJECT regardless of unforeseen contingencies, in accordance with plans, specifications, and work items, a copy of which is hereby incorporated by reference and made a part hereof.

5. The STATE agrees to pay to the WATER COMPANY Seventy-five Percent (75%) of the total cost of constructing the PROJECT, but in no event shall the amount paid by the STATE exceed One Hundred Sixty-five Thousand Dollars ($165,000.00), and the WATER COMPANY agrees to pay all costs in excess of the amount paid by the STATE.

6. All payments made by the STATE to the WATER COMPANY under this agreement shall be made payable to WILSON IRRIGATION COMPANY and mailed to Vern W. Holmes, Secretary, 2969 West 1800 South, Ogden, Utah, 84401, Phone: 731-2746, or such person as may hereafter be designated by the WATER COMPANY. The WATER COMPANY shall, during the construction period under this agreement, establish in a bank of its choice, a special checking account for the PROJECT, and all monies from any source to be used for payment of obligations towards the construction work shall be deposited in this special account and disbursed by check to meet the obligations of the PROJECT construction. Said account must require all checks be signed by two WATER COMPANY Officers specified by the Board of Directors of the WATER COMPANY. All items of labor and equipment shall be fully accounted for, and once each month the WATER COMPANY shall send to the DIVISION OF WATER RESOURCES a photocopy of each check issued from the said special account during the month. A copy of each Bank statement shall also be provided to the DIVISION OF WATER RESOURCES.

7. It is further agreed that payment of the STATE'S share of the construction costs shall be made periodically to the WATER COMPANY upon the presentation by the WATER COMPANY to the STATE of a certified statement of the payment requirement which shall be in the nature of a partial estimate of the work completed to date by the WATER COMPANY on each work item. The WATER COMPANY shall
withhold Ten Percent (10%) of each payment to the construction contractor until Fifty Percent (50%) of the work has been completed, at which time the remaining partial payments may be made in full, if the work is progressing satisfactorily. Also, whenever the work is substantially complete, the amount withheld may be further reduced. The amounts withheld as set forth hereinabove shall be deposited by the WATER COMPANY in a separate interest-bearing account, with the interest accruing to the benefit of the contractors and subcontractors on a pro rata basis according to the work performed by each. The withholdings and the interest earned thereon shall become due and payable to the said contractors and subcontractors upon satisfactory completion of the construction work under this agreement, or sub-agreements, and upon final inspection and acceptance of the work by an engineer designated by the STATE.

8. It is further agreed that the WATER COMPANY shall complete the construction of the PROJECT on or before May 1, 1991, and that title to the entire PROJECT, including all appurtenant facilities and water rights, shall immediately vest in the STATE.

9. The STATE agrees to sell, and the WATER COMPANY agrees to purchase, the land, easements, rights-of-way, water rights, the constructed works, and all appurtenant facilities acquired by the STATE in this agreement and Assignments at a total purchase price defined to be the combined total of all funds paid by the STATE to the WATER COMPANY for the construction of the PROJECT, but not to exceed One Hundred Sixty-five Thousand Dollars ($165,000.00), plus all expense incurred by the STATE for the investigation, development, and administration of the PROJECT. Said expense incurred by the STATE will be determined by the STATE upon completion of the PROJECT.

10. The purchase price shall be payable over a period of approximately Eleven (11) years, in annual installments of Fifteen Thousand Dollars ($15,000.00) without interest. The first annual installment of Fifteen Thousand Dollars ($15,000.00) shall become due and payable on the First Day of December, 1991, and a like sum shall be due and payable on the First Day of December of each and every year thereafter until the purchase price, as defined above, shall have been paid in full; said sums shall be payable at the office of the DIVISION OF WATER RESOURCES and the first monies received by the STATE under the terms of this contract will be applied against the indebtedness incurred by the STATE for project investigation, development, and administration until fully paid, and any residue will be applied to funds paid by the STATE for the construction of the PROJECT. Delinquent payments shall bear interest at a rate of Eighteen Percent (18%) per annum.

11. During the purchase period, the WATER COMPANY may not change the use of any PROJECT water or facilities from irrigation
to industrial, municipal, or hydroelectric power generation without
the written consent of the Board of Water Resources. The WATER
COMPANY agrees that such consent may be conditional upon an
amendment to this agreement to reflect a higher interest rate
and/or a shorter repayment period for the outstanding balance due
the STATE under this agreement. The terms of the amendment shall
be negotiable between the Parties hereto.

12. During the period of such purchase under this contract,
provided the WATER COMPANY is not delinquent in any manner, the
WATER COMPANY shall have and is hereby given the right to use the
STATE'S water rights, and all facilities constructed thereunder.
During the life of this agreement, the WATER COMPANY agrees to
assume, at the WATER COMPANY'S expense, the full and complete
obligation of maintaining and operating the constructed works, and
other facilities, and of protecting all water rights, easements,
and rights-of-way from forfeiture, including the payment of any
fees or assessments for said water rights, easements or
rights-of-way.

13. In order to secure the payment of the aforesaid purchase
price, it is hereby expressly agreed that the STATE may require the
WATER COMPANY to assess all outstanding shares of its stock for the
full amount of any delinquencies in the aforesaid purchase
installments. It is further agreed by the WATER COMPANY that it
will not incur any mortgages or encumbrances, other than those
already acquired by it, on any of its property, real or personal,
without first securing the written consent of the STATE.

14. The WATER COMPANY hereby warrants the STATE that the
construction of the PROJECT will not interfere with existing water
rights. If the PROJECT herein described shall give rise to a
claim, or cause of action to any holder of any water rights because
of the interference with such rights by the operation of the
PROJECT, then the WATER COMPANY hereby agrees to indemnify the
STATE to the extent of such claim or cause of action.

15. In constructing or causing the PROJECT to be constructed,
the WATER COMPANY shall comply with the provisions of the Utah
Anti-Discrimination Act of 1965 and hereby agrees as follows:

(a) The WATER COMPANY will not discriminate against any
employee or applicant for employment because of race,
color, sex, religion, ancestry, or national origin.

(b) In all solicitations or advertisements for
employees, the WATER COMPANY will state that all
qualified applicants will receive consideration without
regard to race, color, sex, religion, ancestry or
national origin.
(c) The WATER COMPANY will send to each labor union or workers representative notices to be provided, stating the WATER COMPANY's responsibilities under the statute.

(d) The WATER COMPANY will furnish such information and reports as requested by the Anti-Discrimination Division for the purpose of determining compliance with the statute.

(e) Failure of the WATER COMPANY to comply with the statute, the rules and regulations promulgated thereunder and this non-discrimination clause shall be deemed a breach of this contract and it shall be canceled, terminated or suspended in whole or in part.

(f) The WATER COMPANY will include the provisions of Items (a) through (e) in every subcontract or purchase order (unless exempted under the statute or rules and regulations) so that such provisions will be binding upon such subcontractor or vendor.

16. If either party to the contract violates any of the conditions or covenants made herein, the other may give written notice of such breach or failure, and if the same shall not be cured within Ninety (90) days after such notice, the other may declare the contract forfeited and may proceed to its remedies at law for such breach.

17. The WATER COMPANY hereby agrees to indemnify and hold harmless the STATE and its officers, agents and employees from any and all liability or claims in connection with this agreement or the development, design, inspection, construction, or operation and maintenance of the Project, including, but not limited to, any and all claims for injury or death of persons or animals, or for any property loss or damage, including damage to the Project facilities; except for any such claims arising from or caused by the sole negligence of the STATE.

18. It is mutually understood that the STATE'S review of the plans and specifications, bidding documents and general conditions is solely for the purpose of assuring that the PROJECT to be constructed by the WATER COMPANY is as represented in its application and that the PROJECT meets the STATE'S lending criteria. Neither the STATE or officers, employees, or agents thereof shall have any duty to note any design or other defect relating to the PROJECT, and none shall be liable for any loss, claim or damages with respect to the design, bidding, construction, maintenance or operation of the PROJECT or any water system of which the PROJECT is a part.

19. After the WATER COMPANY shall have paid in full the purchase price, as defined above, the STATE shall execute such
deeds and bills of sale as will be necessary to vest the same
title to the aforesaid property and water rights in the WATER
COMPANY.

20. This agreement, or any part thereof, or the benefits to
be received under this agreement, may not be the subject or any
assignment to any person, firm, or corporation, by the said WATER
COMPANY, without first having secured the written consent of the
STATE to any such proposed assignment or disposition of this
agreement.

21. No covenant or condition of this contract can be waived
except by the written consent of the STATE. Forbearance or
indulgence by the STATE in any regard whatsoever shall not
constitute a waiver of the covenant or condition to be performed by
the WATER COMPANY, and until complete performance by the WATER
COMPANY of said covenant or condition, the STATE shall be entitled
to invoke any remedy available to the STATE under this contract or
by law or in equity despite said forbearance or indulgence.
Receipt by the STATE of a partial payment of any installment due
hereunder shall be deemed to be part payment only and
notwithstanding any endorsement, the STATE may accept said payment
without prejudice to its right to recover the balance.

22. This agreement shall not become binding upon the STATE
until it has been signed by all persons and agencies required by
law, and the STATE shall not become liable to the WATER COMPANY for
any commitments made by the WATER COMPANY until this agreement has
been fully executed.

CERTIFICATION AND ACKNOWLEDGMENT

STATE OF UTAH
County of Weber

Comes now Vern W. Holmes, who being first duly sworn upon oath deposes and says: That he is the duly qualified Secretary of the WILSON IRRIGATION COMPANY, a corporation organized under the laws of the State of Utah; that on the 15th day of March, 1990, a meeting of the STOCKHOLDERS of the aforesaid corporation was held at Kanesville, Utah, which meeting was held in the manner required by law and after due notice had been given to the aforesaid STOCKHOLDERS in the manner prescribed by law; that at such meeting 34% percent of the total shares of stock in this corporation were represented and that the following resolution was made, seconded and passed by 100% percent of the company stock represented at the meeting.

RESOLUTION

IT IS HEREBY RESOLVED that Aldo J. Prevedel, President, and Vern W. Holmes, Secretary, acting on behalf of the WILSON IRRIGATION COMPANY are hereby authorized to enter into a contract with the State of Utah, acting through the Board of Water Resources, for the construction of a water conservation project consisting of 1,800 feet of 42-inch reinforced concrete pipe "inverted siphon" located in Sections 23 and 26 of T6N, R2W, SLB&M.

FURTHER, that the total estimated cost of completing the project will be $220,000, of which amount the Board of Water Resources will pay 75 percent of the cost of construction but not to exceed $165,000 and all additional costs to complete the project will be paid by the WILSON IRRIGATION COMPANY, and

FURTHER, that this corporation shall assign to the Board of Water Resources its properties, easements, and water rights, appurtenant to said project on condition that the same be reconveyed to this corporation upon the payment of the purchase price thereof, such purchase price to be the combined total of all money paid by the Board of Water Resources for the construction of the project, but not to exceed $165,000, plus all expense incurred by the Board of Water Resources for investigation, development and administration in its accomplishment of project, and

E1 1406857 BK1806 PG2983
FURTHER, that this corporation shall have full use of such properties and water rights during the life of this contract, provided this corporation is not delinquent in any of its obligations under the contract. We further authorize the Board of Directors of this corporation to assess all the outstanding corporate stock for any payments which may become delinquent under the terms of the aforesaid contract.

Vern W. Johnson
Secretary

STATE OF UTAH  ss
County of Weber

On this 2nd day of July, 1990, appeared before me Vern W. Holmes who is personally known to me to be the Secretary of the WILSON IRRIGATION COMPANY and who did acknowledge to me under oath that he executed the aforesaid document entitled "Certification and Acknowledgment" on behalf of said corporation.
