

1 Hr

- ① Made a check on Country Meadows sub - still laying sewer line

2 Hr

- ③ Made a check on Expansion Alvin Johnson want to make at 2700N on Frontier Rd this job was not coordinated with Boca Vista Water and I had issued the Permit not knowing of the problems. 2700N is a state Rd. so is Frontier Rd. W.C. does maintain Frontier Rd however there are some problems. after checking with Kent Lee R-O-W Engineer for Dist #1 UDOT & Boca Vista water I felt a better look should be made for this and Fred Malon agreed so Mr Wayne Vance the father in law was notified & I cancelled the permit pending a review of same. Fred however reversed his agreement and would not back me up stating I went over his head. This is a poor way I feel to operate and the issue became a inflated political situation which is ridiculous.
