

chance just in same position (mt #4)
 behind east hole in mt
 men 033 north of Co mt #4 + immediately
 3456. found Hub driven by d'Heunenconts
 north to mt #4 3421 !!! should be
 these measured from latter Hub
 (mt #4)

they probably used the east hole in
 making survey mill Creek addition.
 driven by d'Heunenconts men when
 14th st found spike 0.07 north + 0.10 East.
 15th st + set Hub for center of
 north from Hub set this acc. for center
 Higginbotham Lane measured 547.12
 Just over mt #4 from back center
 PM B

latter Hub to mt #2 182.14 = check
 should have been 547.12 and from
 15th st to Hub center 16th st 547.04
 these checked back from Hub center
