

200 ft to mt# 1 found it to be
H. on mt# 1 changed from
these just same position

times

90° 00' repeated this angle 10

Angle I + West on to mt# 1
B.S. on Hub just quit 20 ft
Just over Hub @ 20 ft above
for mt# 1.

No Hub, presumably set by measurement
wrong. This Hub comes 0.65' west of
out + down larger one as it was
single No Hub but knocked it
+ unsecured Hub just set. B35

All just west of Madison and 0 ft 4 ft
then just over mt# 1 B.S. on Hub summit
S.E. + set Hub on other side of line to
later Hub B.S. same position.
north of 20 ft. then just over
then S.E. + set Hub on Hill just
