

am - allowing for temperature was a good check  
0.10 South at both Adams am + Jefferson  
Maell mit S.S. on track am I struck about  
In lifting sight up the Bush from  
split the pocket held on sub 22nd +  
22nd + turning 90° from 22<sup>th</sup> + Adams  
arrive I then set our sub Adams +  
and laid it on g - am also on Adams  
Washington am early in the spring.  
measurement (from 21 to 22) up from  
edly by 3<sup>rd</sup> + by Autumn, I carried this  
on 22<sup>th</sup> + had been checked repeat-  
as it was put in from 21. at 21 + S.S.

Note: This must have been distended  
line of g - am about 0.04 East of track and  
at Jefferson am struck old ~~tree~~ for  
was gone

But both ways the track to which  
at Madison, arrive struck old
