

Center Manhole between 279 & 280  
on Wall

Good stream of water running through  
manhole in good condition around  
top of sewer except 2 or 3 pieces  
in bottom course of bricks decayed  
can hear another leak south  
from this manhole. no  
deposit on the bottom except  
gravel and dirt through  
manhole cover. one leak  
about 50' or 60' from this hole  
north. can see bubbling water

Wall and 26<sup>th</sup> 69

Manhole cover seems to be below  
grade of street. street graders are  
covering hole over with sand  
and gravel.

Manhole in good condition  
no difference in bricks all  
good. Blued end on East  
side not closed, allowing ground  
to run in sewer. No leaks to be seen.
