

set 2"x2" hub for exact
location of intersection
of Harrison Ave. and
29th Street Center -

Reference:-

An exact line
of Harrison Ave Center
and 20.00 north I drove
1"x2" pine stake for
reference hub - and take
ranges as follows: vs

To check location of transit when
at intersection of line 42.5
South of Center 29th Str. with
Center Harrison Ave - with
Vernon at 0 - I point telescope
to sight near Wm. sign and
then angle to sight on Harrison
Ave - and clamp vernier plate
Turn by lower motion back
