From Hub at end of Saturdays measure
Viz 31.15 West of Sta of Tangent at
S'ly Cor - I turn from Saturdays line
West and Left from back sight as
follows for trial line Viz 89° 50' (Ave. of 4 angles)

	Slope Meas	Vert Angle	Correction	Temperature	Cor Slope
Iron	400.67	— 1° 49'	500	84°	-0.20
"	501.06	- 2° 44'	2.50 250	91	-0.57
"	300.47	- 1° 52'	1.50	84	-0.17
"	501.06	- 1° 33'	5.00	75	-0.16
"	501.06	- 2° 25'	3.00	92-78 85	-0.45
"	250.46	- 3° 42'	—	94	-0.52
"	100.19	- 5° 53'		74	0.53
100' Tape	51.50	11° 46'	58	78	-1.23

25 13.47

From Standard at 110 -

The Cattle point is intersection point with line from north, and is 13.2 north of hub set at end of measurement made at time said west line was run (see page 20) -

Post ~~Post~~ 1½ x 1½ Iron hub at the intersection point - and turn angles from this South line to N. line as follows -

Fractions			True Hor
Cotang	Tens	Total	Distance
-.52	-.10	-.82	399.85
-.13	-.10	-.80	500.26
-.02	-.08	-.27	300.20
-.52	-.18	-.88	500.18
-.11	-.12	-.68	500.38
—	-.04	-.56	249.90
—	-.04	-.57	99.62
—	-.02	1.25	57.25
		5.83	260.764

Gulch course

This chord spans a dip in Norris-Mountain Stream
