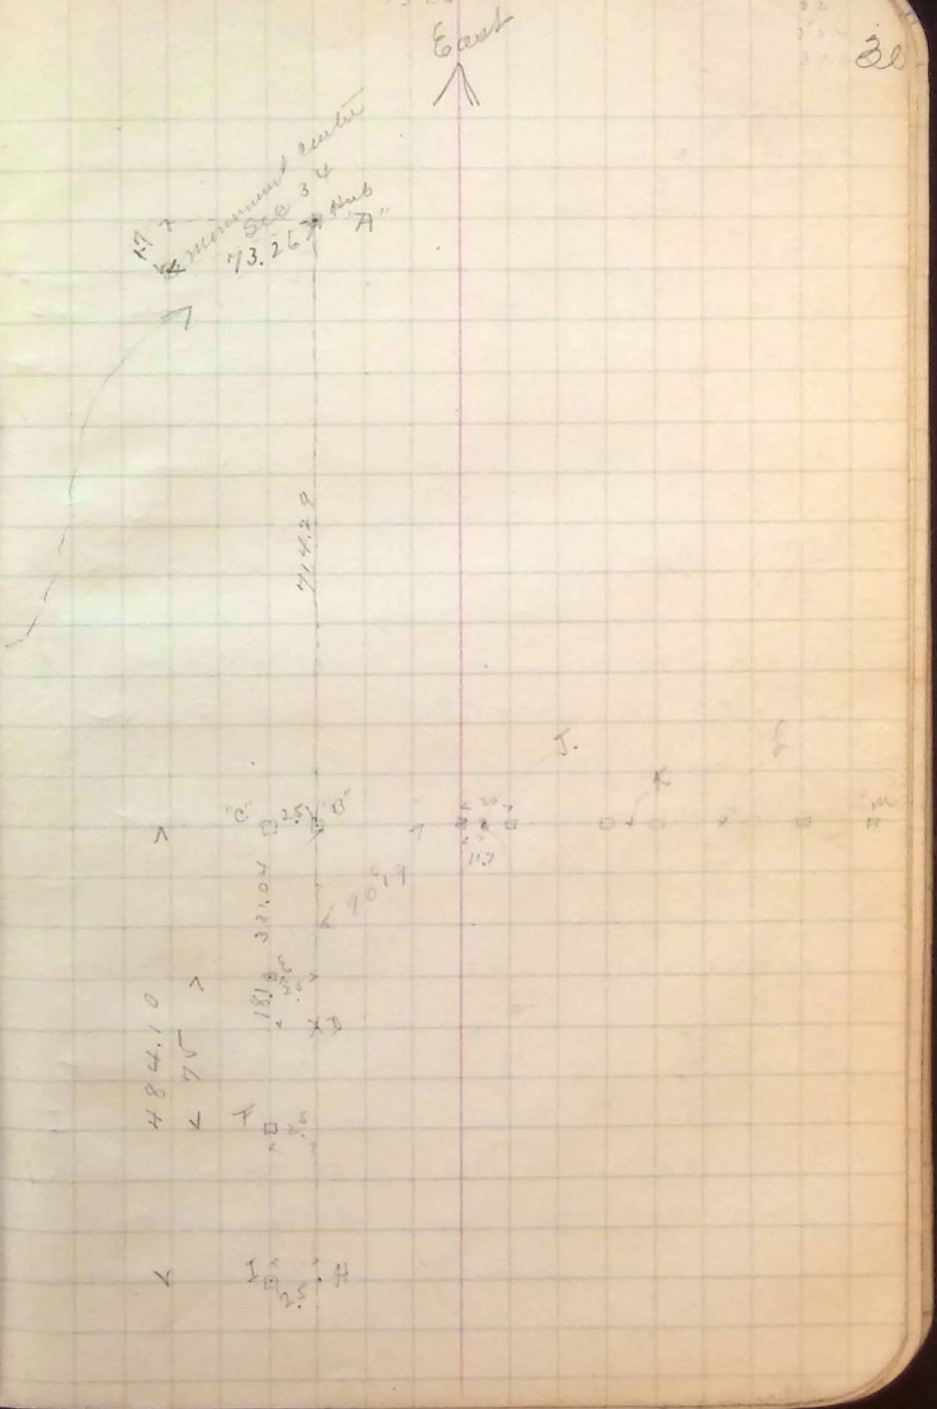
Survey & Check University Park Addition - with a view to City's acceptance -

Hooey set up right on hub on line 42.5 South of Centr of 29th Street - near West corn of Sec 34 - (This line known from notes taken previously) - I set transit on hub on same 42.5 offset near Centr - position of said point being shown by Sketch as follows:-

From Hub "A" I measure West on offset line as follows:- with 200 foot tape L:-

Distance	Slope	Temperature	Catenary	Total Cor.	Correct Dist.
200	3°15	76	100 (-.32) 100 +.02 -.40	-.38	199.67
200	3°38	80	—	+.02 -.38	199.62
200	2°20	82	—	-.16 +.02 -.14	199.86
100	2°52	82	—	-.12 +.01 -.11	99.89
15.25	0°00	—	—		15.25
					714.29


The latter point is Hub set in Survey of Addition - on E. line of same at intersection of 42.5 offset - = Hub "B" I found Hub C - making N.E. Cor of tract 2.5 North of this hub - and also 0.6 E. of Wire fence running N & S.
