

Louis at same point - I measure  
East 75.3 feet to hub on E.  
line of park Ave -

Traverse at same pt - I turn 90° North  
and run down West line of  
park Ave - find hubs meeting  
Alley corner on east side of  
street - and on West line -  
North line <sup>3' alley</sup> being 160.6 from  
South line of block -

Continuing on West line of Park - I find  
hub - at 301.45 from South line

also " " 367.45 " " "

Also check hubs at the street intersection  
two on E. side of street and also  
on Western boundary at this  
cross street and find them to  
correspond with plot

Measure down North and find hub on  
South alley, line 508.30 + on  
N. Alley, line 528.30 - and  
check up hubs on E. side of  
park + on West boundary and  
find them OK.
