

Setting hubs South of 24th St
+ Edg Quarry - for
Monuments at Street
intersections -

Set hubs on center line of Harrison
Ave at intersections of 25th
26th 27th + 28th Sts by measuring
following distances from hubs
previously set on said center
of Harrison - as follows -
(These distances correspond
to standard measures on
Washington Ave. The differences
in totals between 24th + 29th
on the two streets being minimal.)

The Dist. measured are as follows

25 th St	70.20 ft.	from hubs set previously
26 th	108.06 "	" " " "
27 th	3.97 "	" " " "
28 th	60.715 "	" " " "

Fired measures corrected
for temperature
