

Difference between bottom of
canal 180 ft above bridge
and bottom at bridge = 4.17'

Dif bet point at bridge and
point just above H.G. below
bridge = .3'

Dif bet bottom above H.G. and
point in canal running south
= .8'

Dif bet point above H.G.
and point at old bridge below
H.G. = 1.6'

Dif bet point above H.G. and
floor of H.G. 1 1/2 mile below
= 3.9 ft

Dif bet bottom of lower H.G.
and bottom of ditch below =
6.4 ft.

Dif bet bottom of lower H.G.
and point in latter of canal
running south = 1.17

Dif bet bottom of two canals
at County road = 7.85'

Dif bet bottoms in junkies
fills = .3

Dif bet water levels in junk
field = 2.4'

Dif bet water level in new
canal and water level in
river at present time = 9 ft
