Afternoon
fricked up rope & finished
the above half finding
some obstruction in
upper half but not being
able to discharge it it will
probably be a large piece
of cement finished
lower half of same blk.
hose at cor. of Jefferson &
25th plug in good shape
but the whole blk. was
very foul with refuse
system was in neglected
chained three times
shape.

start chain on 24th bet.
Quincy & Monroe hose at
cor. of Quincy & 24th track
inch silver sandy plug
fracking seems to be all
