Thursday Dec 13-1900  
Flushing Sewers

Hydrant 23<sup>rd</sup> + Grant - Reflushing  
the sewer bet Lincoln + Grant  
considerable sand in bottom  
put the chain and brush through  
twice - making 4 times  
small amount of sediment  
still in sewer

Hydrant 23<sup>rd</sup> + Wash - Reflushed the sewer  
bet Wash + Grant much sand  
in bottom - packed pretty solidly  
had to put chain through to  
loosen it up - then followed by  
brush with stream of water -  
most of sediment seems to  
come through the small drain  
pipes over the main sewer
