Weber County, Utah.

At a session of the County Court of Weber County, in the Territory of Utah, held on the 24th
 day of April A. D. 1899 (the minutes of the proceedings of which are recorded in County Book
 on page 461 &c.) the following described road was declared to be a County Road, to-wit:

The following communication from County Surveyor
Postaph was received and read to-wit:—

The undersigned, your engineer would respect-
 fully report that he, on April 25th 1899, examined a
 public road leading from Vinta in a northern direction
 to the top of Weber River hills, that he finds the grade
 of the present road at one point 33 ft rise to 100 feet
 distance. That the grade of the road is too steep to
 permit hauling a reasonable wagon load up the same.
 That he can find no way to reduce the grade materially
 without rebuilding the road on a new line.

That he surveyed a new line for a road com-
 mencing near the residence of Mr. LeGausme and
 running around the side hill to near the lands of

Mr. Wittes, immediately north of the County
 Bridge across Weber river. The road as surveyed
 will have a grade of six feet to each 100 ft. dis-
 tance, and can be constructed as cheaply as any
 road can be built on the side hill. The
 length of the new line is 4700 feet, any in-
 crease or decrease of grade of one foot to
 each 100 feet will not materially increase or
 decrease the cost of the construction.

3600 ft. is on the hill-side, 1100 on
 sage brush lands.
