RECOMMENDED CHANGES IN STATE ROAD SYSTEM

State Route 4

WHEREAS:

Approved August 20, 1964

The completion of project F-018-1(1) has resulted in the realignment of a section of State Route 4 in the vicinity of Garfield in Salt Lake County.

To maintain continuity in the State Road System it is deemed necessary that State Route 4 be revised as an interim designation, subject to the approval of the legislature, to follow the alignment on new location and the old alignment between engineers stations 10 + 00 +- to 41 + 10 +-, 41 + 20 +- to 126 + 30 +- and 128 + 96 +- to 167 + 00 +- since these afore-mentioned sections no longer serve as public roads and in compliance with Section 27-6-1 Utah Code Annotated, it is recommended that these sections of roadway replaced by new construction on new alignment be abandoned. This action would result in a decrease of 0.1 +- mile in the State Route System.

THEREFORE BE IT RESOLVED that the relocation of State Route 4 between Magna and Garfield be added as an interim designation, subject to the approval of the legislature, and the old portions of State Route 4 between engineers stations 10 + 00 +- to 41 + 10 +-, 41 + 20 +- to 126 + 30 +- and 128 + 96 +- to 167 + 00 +- be abandoned.

FROM : H. E. Wilbert, District Engineer *HEW*

SUBJECT: Transfer of Abandoned Portions of US-50 between
Magna & Garfield, Project F-018-1(1)

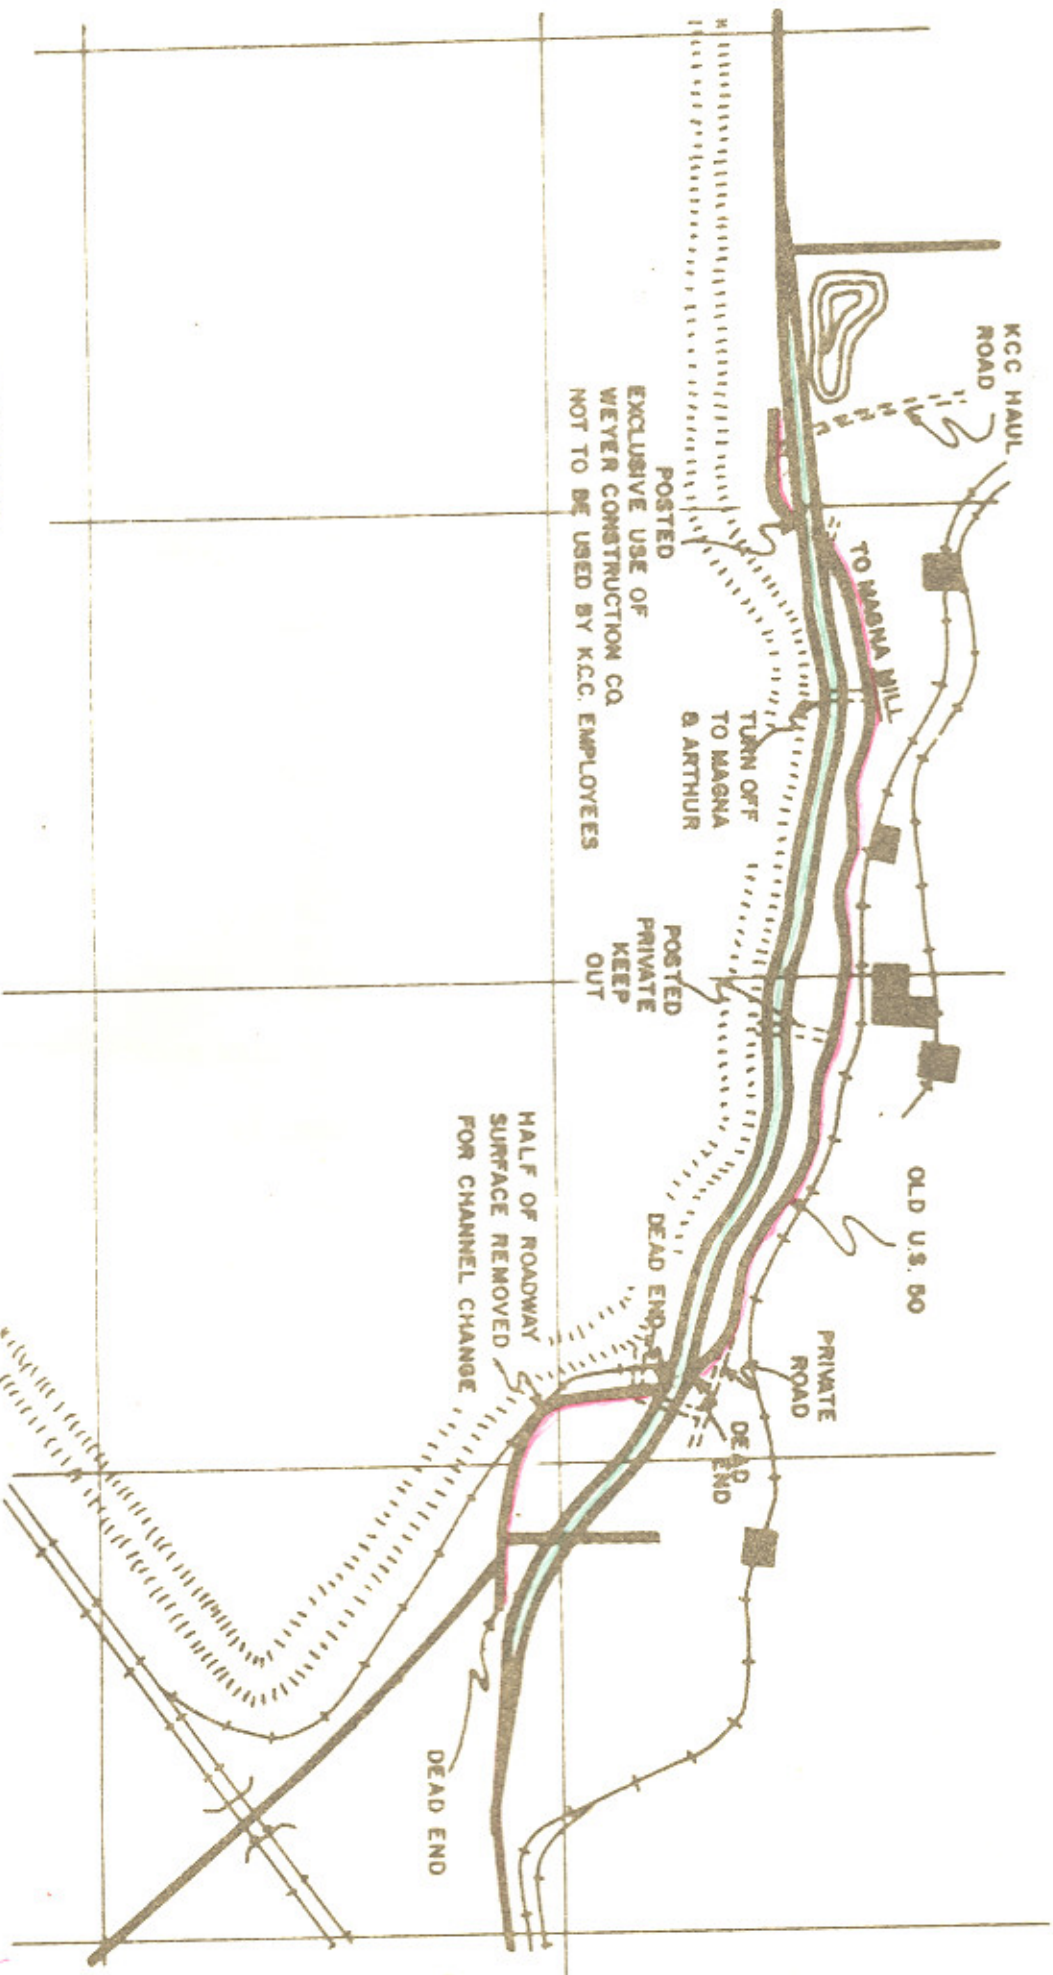

Project F-018-1(1) replaced portions of the original alignment of highway US-50 between Magna and Garfield. The contractor on this project is 99% complete on construction work, and the new road is fully opened to traffic.

The District Engineers office, therefore, recommends that those portions of US-50 replaced by the new alignment (shown in red on the attached prints (4)) be turned over to the county for maintenance. If the county desires, it can then transfer the R/W and maintenance responsibility to Kennecott Copper Corporation, who are presently using these portions of the abandoned road.

RESOLUTION

State Routes 1, 4 and 161

WHEREAS, with the construction of Interstate Projects I-15-3(5)130, I-15-4(1)133 and I-70-1(1)0 in Beaver and Millard County near Cove Fort a distance of 10.635 miles has resulted in the need to reassign state route designations in this area and,

WHEREAS, portions of the old roadway will still serve as a public road though not justified as part of the State System of Highways and,

WHEREAS, to maintain continuity in the State System of Highways and,

WHEREAS, in compliance with the resolution adopted by the Utah State Road Commission on August 20, 1962, designating Interstate Route 15 as State Route 1 as maintenance responsibility is assumed.

NOW THEREFORE, pursuant to the authority of Section 27-12-29, UCA, 1953, AS AMENDED, it is hereby resolved as follows:

1. That the new alignment created by the construction of Interstate Projects I-15-3(5)130 and I-15-4(1)133 south and north of Cove Fort will be designated as State Route 1.

2. That the old location of State Route 1 from the beginning of Project I-15-3(5)130 to the end of Project I-70-1(1)0 be transferred to the jurisdiction of Beaver and Millard County respectively.

3. That the old location of State Route 1 from Engineer Station 1825 + - (Project I-15-4(1)133) to the end of the project be abandoned as this roadway will no longer serve as a public road.

4. That Project I-70-1(1)0 and the old location of State Route 1 commencing at the end of Interstate Project I-70-1(1)0, thence traversing the

old location of State Route 1 northeast to Cove Fort, a distance of 2.24 + - miles will be designated as part of State Route 4.

5. That the old location of State Route 1 from a junction with State Route 4 at Cove Fort northwesterly traversing the old location of State Route 1 to a junction with Interstate Route 15, a distance of 2.03 + - miles will be designated as State Route 161.

6. That by this action Beaver County "B" mileage will increase 2.82 + - miles, Millard County "B" mileage will increase 1.14 + - mile and the State System of Highways will increase 3.38 + - miles.

7. That application be made to the U. S. Department of Commerce, Bureau of Public Roads to relocate Federal-aid Primary Route 1 to traverse the new roadway resulting from the construction of Interstate Projects I-15-3(5)130 and I-15-4(1)133, and that Federal-aid Primary Route 10 be extended from its present termini at Cove Fort southerly via a portion of old State Route 1 to the new alignment created by the construction of Project I-70-1(1)0, thence traversing the new roadway resulting from the construction of Project I-70-1(1) to a junction with Interstate Route 15, and furthermore request that the new designated State Route 161 be added to the Federal-aid Secondary System of Highways. That by this action Federal-aid Primary System mileage will increase 1.35 + - mile and Federal-aid Secondary System mileage will increase 2.03 + - miles.

FROM : Earl Johnson
District Engineer *EJ*

SUBJECT: State Road Construction Changes

Regarding your memorandum of September 14, 1967, attached you will find sketch maps of construction changes in District Four that must have Commission approval to determine the administrative status.

In regard to Project S-0402(5), after investigating the old alignment, it is apparent that it will serve to no advantage for any political subdivision or private individual to continue maintenance; therefore, we recommend the old alignment be abandoned between Sta. 1610+00 and 1957+00. We also recommend that the old alignment that is being replaced by Project F-028-3(7), and Project I-70-3(8)160 be abandoned. However, this section should not be obliterated. Representatives of the Denver & Rio Grande Western Railroad have requested that it be left in tact because it provides the railroad with excellent access for their maintenance forces. However, it should not be included on any State, County, or City highway system.

As of this date we do not have letters from pertinent county commissions recommending the abandonment of these sections of roads. However, we expect to receive letters of concurrence from the County Commissioners within the month. When these letters are received, they will be forwarded to you.

Dear Mr. Silliman:

Subject: Transfer to a new alignment portions of State Routes 8 and 4
in Emery County

Effective March 29, 1968, the State Road Commission adopted a resolution transferring a portion of State Route 8 to the new alignment completed by Projects F-028-3(7) and a portion of Project I-70-3(8)160 at the Green River West Interchange, a distance of 2.6 + - miles, also a portion of roadway constructed by Project I-70-3(8)160, a distance of 3.2 + - miles is designated as a part of State Route 4.

By this action the old alignment of State Route 8, a distance of 4.3 + - miles is abandoned.

Attached is a copy of the resolution and a location map.

UTAH STATE DEPARTMENT OF HIGHWAYS

DATE: September 20, 1973

TO : B. Dale Burningham, P.E.
Chief Res. Engr., Plan & Prog.

FROM : James L. Deaton
District Engineer 

SUBJECT: Redesignation, Transfer, and Abandonment of Highways
P.P.M. 07-4

The construction of I-70 from Crescent Junction to Whitehouse and Harley Dome to the Colorado Line situated in Grand County prompts the transfer of Highway US 6-50.

In that the I-70 alignment will not furnish the continuity of service provided by Highway 6-50, it is recommended that 6-50 be transferred to Grand County's jurisdiction and that they be credited for this additional mileage on their Class "B" road fund's annual allocation.

The length of 50-6 to be transferred to Grand County westerly from the Utah-Colorado line is approximately 8.5 miles and runs from the east section line of Sec. 29, T. 18 S., R. 26 E., S.L.B. & M. and runs southwesterly to the SW $\frac{1}{4}$ of Sec. 21, T. 19 S., R. 25 E., S.L.B. & M.

This section of roadway was open to the traveling public on the evening of September 13, 1973. The length of the 50-6 alignment between the Whitehouse Interchange and Crescent Junction is approximately 22.6 miles. The Whitehouse Interchange is located near the east section line of Sec. 31, T. 21 S., R. 23 E. Crescent Junction is located in the NE $\frac{1}{4}$ of Sec. 33, T. 21 S., R. 19 E. The section between the Whitehouse Interchange and the Yellow Cat Interchange will be open to the traveling public the latter part of October 1973. The section between the Yellow Cat Interchange and Crescent Junction could possibly be open to the traveling public in the fall of 1974.

U.S. DEPARTMENT OF TRANSPORTATION

Gentlemen:

The Route Numbering Committee reviewed the application coming from the Idaho Department of Transportation, and concurred in by the Utah Department of Transportation, for the redesignation of I-80N.

After reviewing the application, together with objections raised by States of Washington and Oregon, the Committee voted to redesignate I-80N as I-84, subject to concurrence by the Federal Highway Administrator, and with the State of Oregon in consultation with the States of Utah and Idaho to make the determination when the sign change would take place; but no later than July 1st, 1980.

This action was reviewed by the Executive Committee at its meeting on July 7th, 1977, and concurred therein.

Sincerely,

[Handwritten signature]
