Dear Mr. Clinton D. Topham:

I discussed your letter, dated January 23, 1989 with our City Council; and they have no objection to your proposals, as they are outlined. The City Council did feel, that the state should consider adding to the Federal Aid Secondary System, the road which would service the Tremonton I-15 off ramp. This would mean designating 1000 North from 2300 West to 1000 West; and designating 1000 West from 1000 North to Main Street or Highway 30. See attached map.

Your consideration of this would be greatly appreciated.

Dear Clint:

This letter is in response to your letter of January 23, 1989, wherein you ask for our concurrence in route numbering changes. First of all we thank you for the consideration in allowing our input in this matter. With regards to SR 129 being changed to SR 30, we feel that this is a good change and will enhance the numbering system. Your letter and map do not agree on what we think you want to do with 102 and 69. We do agree that the State Route 102 be extended east through Tremonton and terminate at its intersection in Deweyville with SR 69. We again agree that SR 102 in its total length from SR 83 to SR 69 be a State Route. We also concur that SR 69 be extended to the north to intersect with SR 30 north of Collinston.

The last request about a new connection to I-15 in Tremonton; we are not aware of this situation as of yet, unless you mean to say that Tremonton would like to have a city street put on the FAS system. As of this date, Tremonton City has not asked us for our opinion, to my knowledge, except that their city engineer mentioned they were thinking about it and would we support it. However, no formal request to date has been acted upon.

We trust this will suffice as Box Elder County's input to these questions.

Respectfully,

Denton H. Beecher, RLS

DATE: September 20, 1993

TO: Clinton D. Topham, P.E.
Director of Planning

FROM: Dale E. Peterson, P.E.
District One Director

SUBJECT: Request Change of Route Designation for SR-69

We would like to request a change in the route number for SR-69 from SR-13 at Brigham City to SR-30 at Collinston. The SR-69 route signs have become a collectors item for a large number of individuals, resulting in a large expense for us in replacing the signs. We suspect it is college students that are taking most of the signs, as there is a very significant loss in SR-69 sign panels during the college school year. We lose approximately 35 sign panels each year from this route. Often times, the post is also damaged - requiring replacement. We do not experience losses anywhere close to this magnitude on any other route.

We appreciate your assistance in making this change.
