Dear Mayor Squire:

This is to acknowledge receipt of your letter of June 3, 1982 regarding the Orem Center Street project (U-247) between State Street and Geneva Road. We are in complete agreement with your recommendation and will work very closely with Jack Jones to come up with a firm cost estimate for the proposed improvement. I will make every effort to obtain the funds necessary to bring the road up to standards, and once the construction is accomplished, we will proceed to have this road removed from the State highway system and returned to Orem City.

We certainly appreciate your interest and cooperation, and will pursue this with Jack Jones.

Sincerely,

L. R. JESTER, P.E.
District Six Director

Attention: Les Jester, Director

Dear Les:

I am writing this letter in regard to Orem City Center Street, between State Street and Geneva Road, which is currently a Utah State Highway, #247.

It is my understanding that you have had meetings with Orem City staff to provide street improvements on the entire street west of 800 West. It is also my understanding that, if Orem City would be willing to accept that street as a city street and allow it to be taken off the State Highway system, then the DOT would pursue the installation of all street improvements, including curb, gutter and sidewalk, between 800 West and Geneva Road. It is the feeling of the city staff that this street should be a city street since it is a city street east of State Street and the city is in a better position to maintain the street.

Therefore, the City agrees that if all improvements are brought up to State construction standards on West Center Street, between 800 West and Geneva Road, the City would then accept the street as a city street and allow the state to remove it from the State Highway system and, as a result, the city would be fully responsible for the street from that time forward.

I would like to thank you for the spirit of cooperation that you seem to have with the City of Orem.

Sincerely,

DeLance Squire
