THIS AGREEMENT, made and entered into this ____ day of _____ 1987, by and between the Utah Department of Transportation, hereinafter called the "Department", and the Authorized Officials of the University of Utah hereinafter called "University".

WITNESSETH:

WHEREAS, the Department proposes the construction of a highway between Medical Drive and North Campus Drive known as Project No. NR-282(2), and has prepared a plan showing that portion of the highway within the limits of and/or affecting the roads of University.

The plan which is attached to and becomes a part of this agreement shows the location of the proposed highway and the roads which cross or connect with existing roads in University.

Dear Mr. Findlay:

Proposed Functional Classification
and FAU System Changes

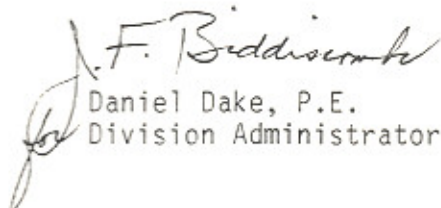

Reference is made to your April 7, 1988, request for approval of functional classification and Federal-aid system changes in the Salt Lake urbanized area.

Your request is not approved at this time. Our reasons for denying approval are as follows:

1. Implementation of the changes as proposed would result in a discontinuity of both the functional classification and Federal-aid urban systems, particularly with regard to the proposed highway facility east of the hospital complex and Fort Douglas.
2. Proposed changes in urbanized areas must include: (a) evidence of local government approval (in this case the Wasatch Front Regional Council), and (b) a certification that the proposed system actions are in conformance with the planning process required by 23 USC 134(a).

These issues have been discussed with your staff and Mr. Douglas Hattery of the WFRC.

Sincerely,

Daniel Dake, P.E.
Division Administrator
