Subject: Roads at State Parks

Dear Chairman Chase:

The State Division of Parks and Recreation and the State Highway Department have discussed proposals for the construction and maintenance of roads at State Parks. At a number of parks existing roads require maintenance and in some cases new construction is needed. The two State agencies have come to an agreement upon a course of action at a State Park situated within your county.

When I-15 past the Willard Bay State Park north area is built the construction will include an access road from the Willard interchange to the marina. It is our proposal that this road would remain a State Road rather than being turned over to the county. It is also our proposal that the short segment of road within the South Recreation Area become State responsibility and be numbered SR-312.

I am enclosing a copy of a resolution which will be presented to the State Road Commission for adoption if the proposed action is acceptable to your Board of Commissioners. I would appreciate a letter from your Board stating its position on the proposal set forth in the draft resolution.

Very truly yours,

Blaine J. Kay, P.E.
State Highway Engineer
