NARRATIVE
This survey was requested by J. K. Smith in order to set the boundaries of the above described lots. No survey control was found within the subdivision, but by using a number of fences and curb splits, the control was reconstructed. A line bearing North 0°06' East along the center line of 325 West Street was used as a basis of bearings. Also, the Northwest corner of Section 29 (Brass cap) and the West Quarter corner of Section 20 (brass cap) were found and tied into as depicted on drawing.
