

NARRATIVE:

Boundary Specialists were retained by Sharon Richardson to perform a record of survey of the parcels of land shown hereon. Field work commenced on February 16, 2004 with subsequent field work being performed on March 05, 2004. Field data was collected using a Trimble 5800 GPS system. A #5 rebar 18 inches long with a yellow plastic cap stamped 356548 was set at the northwest corner of the Parcel, no other property corners were set as the southeast corner falls upon a block wall and the other corners fall upon fence posts. A thorough search was made for evidence of the West line of Section 17 with no success, the location of the Section corners were established from the Ogden City Plat Maps.
