**NARRATIVE**

This survey was requested by Margaret Pappas on behalf of Raymond Colley the buyer of the lot. The survey was done in order to re-establish the lot corners. Monuments were found to be in place at the centerline intersections of 4750 South Street with 1000 East Street and 4725 South Street with 1000 East Street. A line bearing North 0°54'10" East between these two monuments was used as a basis of bearing. The points set and found around the lot are as depicted on this drawing.
